Markus Wellmann

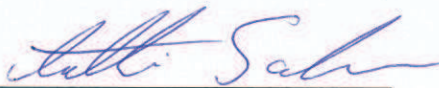

has participated in the

MyTerritory2 -project
(01.09.2011 – 31.01.2012)

as a part of the
Demola of New Factory
open innovation initiative.

Markus worked in roles of a game designer and backend programmer in a project assigned by Nokia. The project's goal was to create a location based game combining music and exercise. Project was done by the team without daily guidance.
